

Preventive medications are defined as those prescribed to prevent the occurrence of a chronic disease or condition for those individuals with risk factors, or to prevent the recurrence of a disease or condition. Your plan values the impact these medications have on your health. You do not need to meet any deductible for preventive medications and your prescription benefits are paid immediately for these products. This list contains examples of preventive medications organized by therapy class. Medications may be added to or removed from the list periodically and the list is not all inclusive.

## PREVENTIVE MEDICATIONS COVERED UNDER THE AFFORDABLE CARE ACT (ACA) - \$0 COPAY

CATEGORY	COVERED MEDICATION
Aspirin Preventive Medication	Low-dose (81 mg) - Men – ages 45 to 79 / Women – ages 55 to 79 years  <i>The USPSTF recommends the use when the potential benefit of a reduction in myocardial infarctions outweighs the potential harm due to an increase in gastrointestinal hemorrhage.</i>
Breast Cancer Prevention	Generic tamoxifen tablets, raloxifene tablets and generic aromatase inhibitors at zero co-pay.  <i>The USPSTF recommends that clinicians engage in shared, informed decision making with women who are at increased risk for breast cancer about medications to reduce their risk. For women who are at increased risk for breast cancer and at low risk for adverse medication effects.</i>
Cholesterol Preventative Medication	Generic statins for adults ages 40-75 years old at zero copay – atorvastatin, fluvastatin, lovastatin, pravastatin, pitavastatin, simvastatin, rosuvastatin  <i>The USPSTF recommends that adults ages 40-75 without a history of cardiovascular disease (CVD) use a low to moderate dose statin for the prevention of CVD events and mortality when they have one or more cardiovascular disease risk factors and a calculated 10-year risk of a CVD event of 10 percent or greater.</i>
Colorectal Cancer Screening	For adults 50 to 75 years old, select generic prescription bowel preparation agents at zero copay
Folic Acid Supplementation	Select folic acid supplementation products containing 400 to 800 micrograms of folic acid at zero copay.  <i>The USPSTF recommends that all women planning or capable of pregnancy take a daily supplement containing 0.4 to 0.8 mg (400 to 800 µg) of folic acid.</i>
Cavity Prevention - Fluoride Supplementation	For children age 6 months to 6 years, select generic oral fluoride supplementation products at zero copay.  <i>The USPSTF recommends primary care clinicians prescribe oral fluoride supplementation starting at age 6 months for children whose water supply is fluoride deficient.</i>
Immunizations	Cover select vaccines in accordance with recommendations of the ACIP. These include but are not limited to shingle and flu vaccines at zero copay.  <i>The Centers for Disease Control and Prevention (CDC) Advisory Committee on Immunization Practices (ACIP) publishes recommendations on immunizations for children and adults. Please refer to the National Immunization Program Website at <a href="https://www.cdc.gov/vaccines/schedules/index.html">https://www.cdc.gov/vaccines/schedules/index.html</a></i>

CATEGORY	COVERED MEDICATION
<b>Contraceptive Methods</b>	<p>Cover numerous contraceptive methods at zero copay. These products include but are not limited to: Generic OTC contraceptive methods (spermicides); generic hormonal contraceptives (oral and injectable); Generic emergency contraceptives; Intrauterine devices.</p> <p><i>The HRSA recommends all Food and Drug Administration approved contraceptive methods, sterilization procedures, and patient education and counseling for all women with reproductive capacity.</i></p>
<b>Smoking Cessation</b>	<p>Select smoking cessation products at zero copay – Chantix products</p> <p><i>The USPSTF recommends that clinicians ask all adults about tobacco use, advise them to stop using tobacco, and provide behavioral interventions and U.S. Food and Drug Administration (FDA)-approved pharmacotherapy for cessation to adults who use tobacco.</i></p>
<b>Fall Prevention - Vitamin D Supplementation</b>	<p>Generic vitamin D supplementation products for adults over age 65 at zero copay.</p> <p><i>The USPSTF recommends vitamin D supplementation to prevent falls in community-dwelling adults age 65 years and older who are at increased risk for falls.</i></p>
<b>HIV Prevention</b>	<p>Cover Truvada or Descovy at zero copay if clinical criteria is met.</p> <p><i>The USPSTF recommends that clinicians offer pre-exposure prophylaxis (PrEP) with effective antiviral therapy to persons who are at high risk of HIV acquisition.</i></p>
