Empowering You

Your health matters, and we're here to make your medication journey as smooth as possible. With **Surescripts** electronic prior authorizations, working with your healthcare provider to get your prescriptions approved is now faster and easier than ever!

Over 86% of providers report improved efficiency with ePA.

CerpassRx + Surescripts: ePA for Your Providers - Completely Free!

CerpassRx has partnered with Surescripts to bring the power of Electronic Prior Authorization (ePA) directly to your provider and their staff—at no cost to you!

What is an Electronic Prior Authorization (ePA)

An electronic prior authorization (ePA) is a streamlined process that allows your healthcare provider to get your medication approvals quickly and efficiently through digital tools, reducing delays and manual paperwork.

CERPASSRX®

How Does It Benefit You?

- ✓ **Faster Approvals:** No more waiting days for your medications—ePA speeds up the process.
- ✓ **Simpler Process:** Your healthcare provider can submit and track authorizations electronically, eliminating extra steps.
- ✓ **Fewer Hassles:** No need for back-and-forth calls or faxes.
- ✓ **Better Communication:** ePA keeps everyone informed, from your healthcare provider to your pharmacy.

What Can You Do?

1 Talk to Your Provider

- Ask if they use Surescripts ePA to submit prior authorizations for your prescriptions.
- Encourage them to take advantage of this efficient system to save time for everyone.

2 Stay Informed

- Check with your provider to ensure all required information for your prescription is submitted promptly.

3 Follow Up

- If you encounter any delays, remind your provider about ePA and the benefits of submitting electronically.

92% Faster Approvals

ePA reduces processing time from days to hours, with 92% of approvals completed in less than 24 hours.¹

70% Fewer Callbacks

Providers report up to a 70% reduction in back-and-forth communication with pharmacies and health plans.²

30% Improved Patient Adherence

Patients are more likely to start and stay on their medications when prior authorizations are handled promptly.³
